

220 (224.700, minus offset, with a PL of 156.7)

Good evening, this is [[My Name · My Call sign](#)] net control this evening for the Ventura County Area 2 ACS/ARES check-in net on the K6HB repeater at 224.700 MHz, minus offset, with a PL of 156.7

Area 2 serves the Conejo Valley, including Newbury Park, Oak Park and Thousand Oaks. This net operates every Tuesday at about 1910 hours local time.

If there is any emergency or priority traffic before I begin the net, please come now.

Pause, and listen for traffic -

For all those checking in, please give your call sign phonetically, your first name, ACS ID number if you have one, and state if you have traffic for this net, or any traffic to pass onto the county net.

In addition to check-ins on this frequency, we are also accepting check-ins on:

- **2 Meter** (147.885, minus offset, with a PL of 127.3)
- **440** (449.440, minus offset, with a PL of 131.8)

If you can, please check in on these other repeaters.

Any members or visitors wishing to check -in, please come now...

Record check-ins.

END NET AT APPROXIMATELY 1925 HOURS

Thank you for checking in tonight and for supporting ACS/ARES. Anyone wishing to sign up for membership, please contact any Area 2 AEC.

I would like to thank K6HB for the use of his repeater, and for his continued support of ACS/ARES Area 2.

This is [[My Name · My Call sign](#)] closing the net at _____ hours. The repeater will now return to normal use. The frequency is clear.
