

## **Area 2 440 Net Script (449.400, minus offset, with a PL of 131.8)**

*Black text-read every week. Green text-read during ORTs. Red text-instruction, do not read aloud.*

This is (*name, callsign*), net control operator for the Ventura County Area 2 ACS/ARES check-in net on the Amgen repeater at 449.400 MHz with a minus offset and a PL of 131.8. Area 2 serves the Conejo Valley, including Newbury Park, Oak Park, and Thousand Oaks. This net operates every Tuesday at about 1905 to 1915 hours local time.

If there is any emergency or priority traffic before I begin the net, please come now.  
*(listen for traffic)*

In addition to check-ins on this frequency, we are also accepting check-in on:

- the 2 meter band, at 147.885 MHz, with a minus offset and a PL of 127.3 from 1900 to 1925 hours, and
- the 220 band, at 224.700 MHz, with a minus offset and a PL of 156.7 from 1915 to 1925 hours.

If possible, please check in on these other nets.

For all those checking in, please give your call sign phonetically, your first name, ACS ID number if you have one, or state if you are ARES or a visitor, and state if you have traffic for this net or any traffic to pass on to the county net.

*(During ORTs, add the following paragraph)* **Because tonight is the (Ventura County, Area 2, or Area 2 practice) Operational Readiness Test, I will begin the net by polling the Emergency Operation Centers in Area 2, starting with (conduct poll of EOCs).**

Any members or visitors wishing to check in, please come now. *(record check-ins)*

*(End the net at approximately 1915 hours)*

Thank you for checking in tonight and for supporting ACS/ARES. Anyone wishing to sign up for membership, please contact the Area 2 Emergency Coordinator, N6PK. We would like to thank Amgen for the use of their repeater and their continued support of ACS/ARES Area 2.

This is (*name, call sign*) closing the net at \_\_\_\_\_ hours. The repeater will now return to normal use and the frequency is now clear.
